

# REQUEST FOR INFORMATION (RFI)

**Requested Team** University of Waterloo      **Date** October 7<sup>th</sup>, 2023

**Competition** GNCTR 2024      **RFI No.** RFI\_012

## ISSUE DESCRIPTION AND REASON FOR RFI

Rule 7.5.1.1 states the salvaging of raw material is permitted for competition. Our team was wondering if we could make use of an old steering wheel that could be altered to save material and funds for the team so that it can be utilized in other areas. Is this a viable reutilization or is this impermissible.

## RESPONSE

Yes, this would be acceptable.

Please regard to Rule 7.1.5 if the wheel is from a previous toboggan, as well as rules underlined in Rule 7.4.2 to ensure the salvaged wheel will withstand all technical and safety requirements.

Any salvaged materials must be justified in both safety and technical reports to ensure the material will pass all inspections/requirements.
