

REQUEST FOR INFORMATION (RFI)

Requested Team University of Calgary **Date** June 19th, 2023

Competition GNCTR 2024 **RFI No.** RFI_003

ISSUE DESCRIPTION AND REASON FOR RFI

A graduated member of our 2023 competing team will be returning to the University of Calgary in the fall to start his masters. He said that a few years ago there was an official rule that stated that each team was allowed 2 graduate students. We didn't see mention of anything like this in the 2024 rule book and we were wondering if we would be allowed to have graduate students on our competing team?

RESPONSE

Any student who is enrolled in a full-time graduate program at the Team's school will be allowed to participate in GNCTR 2024.

Competing Teams will be capped at a maximum of 2 full-time graduate program students.

Teams will be required to identify which Competitors are undergraduate or graduate students during registration.

Competition Rule Book version 001 will be released with the following update: ***Rule 5.7.1: Competing Teams are allowed to register with full-time graduate program students. Competing Teams will be capped at a maximum of 2 full-time graduate program students. Non-Competing Teams will have no cap.***
